feel free to contact us at +212 5 22 92 00 00 or by e-mail at sales@ocpgroup.ma

Freight Services

Shipping is one more service that OCP can provide to accommodate the product to its final customers.

One of OCP main objective is to ensure an efficient supply chain management meeting its end partner's requirements at every point of all the chain.

Through history, OCP has developed high experience in terms of means of sea transportation both liquid and dry bulk carriers. In the prospect of complying with specific target market, OCP is also shipping its products through sea containers.

In order to reach from big to small customers, OCP has developed a new way of shipping its products, called the "containers"; these boxes that have linked nowadays different points of the worldwide trade.
