Foundation

OCP Foundation was created to carry out the social and societal commitment of OCP Group. Its main goal is to develop and implement community programs, focusing mainly on the human development. Therefore, OCP Foundation, by adopting a participatory approach, establishes the basis of an integrated citizen action for an economic and social development of Morocco and of several Southern countries, within a South-South cooperation context.

Its scope of action includes the promotion of education and training, the enhancement of youth employability skills, the promotion of entrepreneurship, poverty reduction, the socio-economic development and the access to health care, social and cultural action & conservation of the national heritage and the support for food security programs.

OCP Foundation also fosters the field of research and training through the Mohammed VI Polytechnic University, and encourages intellectual stimulation through the think tank OCP Policy Center.
