

Mining Sites Rehabilitation

Mining Sites Rehabilitation

-

As a responsible player, OCP Group's development program is subject to a sustainable environmental approach. As part of this effort, OCP is embracing a novel vision of mining site rehabilitation. Each mining extraction plan is complete with a blueprint for the future rehabilitation of the sites involved, the objective being to minimize the impact of the Group's activities in its operational areas while setting up a sustainable development dynamic in the region for the benefit of neighboring communities.
