

OCF GROUP ANNOUNCES THE CREATION OF ITS SUBSIDIARY «OCF AFRICA», DEDICATED TO THE AGRICULTURAL DEVELOPMENT IN AFRICA .

Marrakech, 25th February 2016.

An African company committed to the development of the agricultural ecosystem in Africa, OCP Group is the world's leading producer and exporter of phosphates in all forms and an essential player on the fertilizers market.

For the 7th international «Argus FMB Africa Fertilizer 2016» conference, being held at the moment from 24th to 26th February in Marrakech, OCP Group is pleased to announce the creation of its subsidiary, OCF AFRICA.

This new entity aims to contribute to meeting the challenge of creating structured, efficient and sustainable agriculture on the continent of Africa, by providing agricultural producers with all the resources they need in order to succeed: suitable, affordable products, services and partnerships, logistics and financial solutions.

To support the local development, OCF AFRICA plans to open about fifteen subsidiaries in Africa over the coming months.

OCF AFRICA, subsidiary of OCF Group, obtains «Casablanca Finance City» (CFC) status :

OCF AFRICA, a holding company dedicated to the African continent and newly created by the OCF Group, has just been granted CFC status. This label is a real asset for the company in facilitating its investments and operations across the continent.

ABOUT ARGUS FMB AFRICA FERTILIZER 2016

Supported since its launch in 2010 by OCF Group, the Argus FMB Africa fertilizer has established itself as the only event to fertilizers use in Africa. 60 countries are represented at this annual event.

The Argus FMB Africa fertilizer aims to develop the debate on strategies for increasing fertilizer consumption growth in West Africa, on strategies for infrastructure developments and also on development in East and Southern Africa. With more than 400 attendees from 24th to 26th February in Marrakech, the event beats all the records.

ABOUT OCP GROUP

OCP Group is proud to contribute to feeding the expanding world population by providing it with elements that are essential for soil fertility and plant growth.

With almost a century of expertise, OCP Group is one of the world leaders on the market for phosphate and its derivatives. The Group offers an extensive range of fertilizer products for use in enriching soils, increasing agricultural yield and feeding the world in an economic and sustainable way.

Based in Morocco, OCP Group works in close partnership with over 160 clients across the 5 continents.
